Transforming Long Term Care Homes

3rd Thursday of the month, 1-3 pm

There are a number of long term care homes but only some of them truly make one feel at home. Come join us as we hear a summary of four innovative models: The Butterfly Model; The Eden Alternative; The Green House Project and Hogewey Villages.

There will also be a brief presentation by Dan McEwen on Motitech, an exercise program for the frail elderly and those with dementia.

Looking ahead:

Thursday October 17
Musical Afternoon
